The services at the house were conducted by Rev. Weir, of the U. P. Church, of the which church both McKim and Crowl, were members. Rev. Chalfant, of the Presbyterian Church, assisted the Rev. Weir, and both made very solemn and impressive remarks upon the terrible uncertainty of human life. At the conclusion of the services the body was removed to the yard, and the immense crowd filing past on either side took a last view of the remains, which but for the slight discoloration of the lips presented the appearance of one in a quiet healthful slumber far different from the long last sleep of death. The line of pro-

cession was then formed, the schoolmates of the decessed following the immediate relatives, and the body carried to the depot and put upon the 3:25 train. A special car was filled with those who accompanied the remains to Portland where the interment took place.

THE SEARCH FOR YOUNG CROWL was renswed yesterday morning, and the river dragged until noon without success, at which time the river was so rough, from the high wind, that the skiffs were unmanagable, and the search had to be discontinued. About 3 o'clock, the wind having fulled, the effort to recover the body was renewed a long line reachthe body was renewed, a long line reach-ing near two-thirds across the river hav-ing been provided and strung with grap-pling hooks about three feet apart. From the first he (Greer) called upon the boys to stay by the skiff, as they could easily work it to shore. THE EASTERN QUESTION.

Germany Coming to the Rescue by Diplomacy.

Pacific Prospects.—Russia Receding.

London, April 12.—The tone of the comments on the political crisis is much more hopeful. The conviction is that Russia is preparing to accept the help of Germany to get her out of the present dead lock by such concessions as will escure a meeting of the Congress. Prince Gortschakoff's reply to Lord Salisbury's circular, and the circular to which it was annexed, were only published in St. Petersburg on Thursday.

At Vienna Prince Gortschakoff's reply

At Vienna Prince Gortschakoff's reply reated an impression of Russia's will-ingness to find an acceptable method for re-opening negotiations. This moderate spirit in a great measure is believed to be due to the altered tone of the com-

be due to the altered tone of the comment of the German, French and Italian press and politicians concerning the treaty of San Stefano, which point to the probability of Russais, instead of England, being isolated in case of a rupture.

The alleged circular of Gortschakoff, which seems to reply to Austria's objection, is probably a stupid hoax of some Paris newapaper. There seems to be some disposition at St. Petersburg to show Rommania more consideration. It is announced that Gortschakoff meant that the stipulation for the passage of the Russian troops through Rommania, not the question of the cessation of Bessarabia could not be submmitted to the Congress. It is also stated that the Russian Commissioner will go to Bucharest to treat with the government. Stevtcha Mihialovitch, the Servian Minister President, has resigned in consequence of the vacilitating policy of the Servian Government. It is said that Anglo Austrian influences are now in descendent at Belgrade, and there is a disposition on the part of Servia, Roumania and Montenegro to make joint remonstrance to the Powers against the treaty of San Stefano.

RUSHA COVERING HER REFERAT WITH

ST. PREERBURG. April 12. — The Journal de St. Petersburg, reviewing the opinions of the foreign press upon Gortschakoff's reply, concludes as follows: The real desire of Russia to bring about a peaceful solution of the existing difficulties meets with universal recognition. The British Government must now abandon its porely negative attitude either by Inviting the Powers to assemble for common negotiations or by proposing solutions which the British Cabinet may wish to substitute in the treaty of San Stefano. Should the Powers find a compromise Enesia would willingly participate in the discussion and modify the treaty. Such solution should not, however, nullify the results gained by Russian blood, but take into account her sacrifices.
